 Before the Emergency59

 When an Emergency Occurs59

Exhibit L—Mutual Assistance for District Energy (MADE) Executive Committee 61

Acknowledgments

This guidebook draws from documents in current use, including the National Incident Management System issued by the US Department of Homeland Security, Disaster Response Plan issued and used by the State of Texas to serve its State Universities, one used by the Northeast Gas Association and other plans from similar utility organizations that respond to emergency situations with assistance in the form of personnel, supplies and equipment.

The International District Energy Association (IDEA) applauds the pioneering work performed by the University of Texas. The University of Texas Disaster Response Mutual Assistance Agreement MOU and Guidebook were created in 2002 by a team of over 60 people including subject matter experts in finance, physical plant, security, environmental health and safety, human resources, procurement, counsel, and information resources.

IDEA gratefully acknowledges the inspiration and leadership of Richard Boscarino, Department Manager of Operations Emergency Management for Consolidated Edison Company of New York, and Vincent Badali, Project Manager at Burns & McDonnell, then Chair of IDEA, whose vision to establish a Mutual Assistance for District Energy plan was the inspiration behind this *Guidebook*. For his diligent expertise in revising this November 2014 edition of the MADE Guidebook, IDEA thanks Chris Lieberman, Project Specialist Emergency Management at Consolidated Edison Company of New York, and also Richard Boscarino, Department Manager of Operations Emergency Management at Con Edison and Pat Davin, Facility Services Manager at Veolia North America for their careful oversight of the revision.

IDEA gratefully acknowledges as well the support and oversight of other members of the MADE Steering Committee, including Rob Thornton, President & CEO of IDEA; and Len Phillips, Director of Business Development at IDEA. Thanks also to Joel Greene and Brad Martorano of Jennings, Strouss & Salmon, PLC, and Tim Merrill, formerly with NRG Energy Center Pittsburgh, LLC, for their meticulous review of the material. IDEA also thanks Risk Manager Stephanie Hyde and attorneys Rob Arendell and Dan Mahoney of Veolia Energy, N.A. and attorney Caroline Landau of Consolidated Edison for their detailed, expert review of the Cooperation Agreement and Memorandum of Agreement and related sections of the text.

Exhibit L—Mutual Assistance for District Energy (MADE) Executive Committee

The MADE Executive Committee will oversee and advise on all aspects of the MADE program. A Steering Committee was formed to oversee the publication of the MADE Guidebook, and continues as the Executive Committee, to oversee updates to this Guidebook, the annual Table Top Exercises, and other pertinent matters.
